

## Setup Options for Video Conferencing

There are several mechanisms now in place that one can choose to use to obtain your goals.

1. Chairs already should know about the setup for an Owner College (Coleman) wants to offer their classes at a Host College (see [When One College](#) for setup). This setup allows students to see Coleman courses offered at other campuses such as Katy and Alief, so they don't think they have to travel to Coleman.

2. We have modes of instruction for chairs to choose. While the Mode of Instruction is not displayed in the class search, the Mode of Instruction can be a search criteria in the class search. The chair could choose the Teleconference Mode of Instruction. If used, students could then choose Teleconference for mode on the search page and only find the courses that are using Teleconferencing.
